Des Moines, IA 50312

Dear Joseph:

The City of Edgewood is applying for I-Jobs II Disaster Prevention Grant program and USDA Rural Development Community Facilities program funding to construct a safe room and new fire/ambulance facility. The I-Jobs II program requires certification that appropriate staff have been contacted to assure there is no duplication of benefits in the project.

The City has secured funding from the USDA-RD to assist with this project. The contact person for the USDA-RD for this project is Doug Moss in the Waverly, IA regional office. Doug's telephone number is 319-352-1715, ext. 4. The USDA RD staff will assure there is no duplication of benefit in this project.

Thank you for your consideration of the Edgewood application. Please feel free to contact me if there is any further question on the application.

Sincerely,

Larry Nagle  
Manager of Government Relations
